SOLITARIO AND ELY GOLD UPDATE PROGRESS
ON MT. HAMILTON GOLD PROJECT, NEVADA

Denver, Colorado: Solitario Exploration & Royalty Corp. ("Solitario;" NYSE Amex: **XPL**; TSX: **SLR**) and Ely Gold & Minerals Inc. ("Ely;" TSX.V: **ELY**) jointly announce that Solitario has initiated core drilling on the advanced Mt. Hamilton gold project situated at the southern end of the prolific Battle Mountain gold trend in eastern Nevada. Two core rigs are now drilling as part of a twelve-hole program to provide feasibility-level geotechnical, hydro-geologic and infill resource information for the feasibility study that is now underway.

In addition, Solitario made the \$300,000 advanced royalty payment to the underlying owners of the Mt. Hamilton lease as prescribed in the binding Letter of Intent ("LOI") to joint venture the Mt. Hamilton gold project. Solitario can earn up to an 80% interest in the property by completing a bankable feasibility study and making future property and royalty payments. Solitario and Ely have mutually agreed to extend the date to form a jointly held limited liability company (the "LLC") to December 20, 2010, to allow the transfer of Ely's Mt. Hamilton gold assets and ownership interests by DHI Minerals (U.S.) Ltd., a wholly owned subsidiary of Ely. All other terms of the LOI previously approved by Ely shareholders and the TSX Venture Exchange remain unchanged. As part of its initial earn-in commitment, Solitario is committed to spend a minimum of \$1.0 million on exploration and feasibility work by August 26, 2011. For a more complete list of the terms and conditions under the LOI, a copy of the LOI is available online at www.sedar.com, www.solitarioxr.com & www.elygoldandminerals.com
